

PLATFORM OVERVIEW

Zenput for Convenience Stores

Make operations more agile

Quickly deploy new strategies and initiatives, and ensure that every store is realigned with them.

Ensure quality work in every store

Give your teams the tools and accountability needed to operate at a higher level, with clear visibility for management into the work being done.

Increase employee productivity

From the teams executing tasks in your stores to the field managers that oversee them, empower your staff to work smarter and more efficiently.

Elevate team execution in every store

Leading convenience store operators use Zenput to elevate team execution in every store. By automating how operating procedures, public health and food safety protocols, and other key initiatives are rolled out and enforced, Zenput turns strategy into action faster and equips teams to deliver on it.

Zenput has totally changed how we run our business. We've gotten many of our different departments involved in it too, so this has become a central platform for operating our stores.

GARY RASMUSSEN,
DIRECTOR OF TRAINING, TIMEWISE

Trusted by the world's best brands
